

Inspections

Competency Checklist

Your Learning Competencies

- ☐ **I can explain** the purpose of regulatory inspections and their role in protecting public health, safety, and welfare
- ☐ **I can identify** the five main types of inspections and describe the specific rules that govern each type
- ☐ **I can describe** the dual role of inspectors as both impartial enforcers and supportive educators
- ☐ **I can list** the essential elements needed for effective inspection planning and preparation
- ☐ **I can explain** the three key steps in conducting systematic inspections and the purpose of each step
- ☐ **I can identify** the four critical elements of proper inspection documentation and why objective record-keeping is essential
- ☐ **I can recognize** when an inspection transitions to an investigation and explain the protocols that must be followed
- ☐ **I can describe** the professional standards that guide inspector conduct and maintain regulatory credibility
- ☐ **I can identify** key safety protocols inspectors should follow to protect themselves in potentially high-risk environments
- ☐ **I understand** how effective inspections support the broader regulatory mission of maintaining public trust in essential services

This competency checklist serves as a record of learning objectives achieved in the Inspections module.
